**CONVERSION OF CGPA TO % OF MARKS**

- ❖ The overall performance of the students in B Tech programme is indicated by the CGPA on the 10 point scale. The award of class in B Tech degree is purely based on the CGPA but not on the percentage of marks secured.

As per the Resolution of the **College Academic Council** in its meeting held on **21-04-2018**, the approximate equivalence of marks to a given CGPA is calculated by using the following formulae :

**w.e.f VR14 Regulations:** i.e outgoing students of 2014 batch and onwards..

**Percentage Equivalence of CGPA =  $[CGPA - 0.5] \times 10$**

**VR10 Regulations :** i.e for the students joined w.e.f the year 2010 to 2013

**Percentage Equivalence of CGPA =  $\frac{\text{Marks secured by the student}}{\text{Grand total marks}}$**   
**in all the subjects of all the semesters**
