CONVERSION OF CGPA TO % OF MARKS

❖ The overall performance of the students in B Tech programme is indicated by the CGPA on the 10 point scale. The award of class in B Tech degree is purely based on the CGPA but not on the percentage of marks secured.

As per the Resolution of the **College Academic Council** in its meeting held on **21-04-2018**, the approximate equivalence of marks to a given CGPA is calculated by using the following formulae :

w.e.f VR14 Regulations: i.e outgoing students of 2014 batch and onwards..

Percentage Equivalence of CGPA = [CGPA − 0.5] x 10

VR10 Regulations : i.e for the students joined w.e.f the year 2010 to 2013

Percentage Equivalence of CGPA =   **Marks secured by the student**
in all the subjects of all the semesters
Grand total marks.
